No

The Embassy of the Federal Democratic Republic of Ethiopia in Seoul presents its compliments to the EncoreKorea Initiative and has the honor to draw the latter's attention to the following matter.

Over the past decade, Ethiopia has achieved substantial progress in economic and social development. The Ethiopian government's aspiration is that the country would achieve middle-income status by 2025. This requires effective contribution of high-quality graduates, especially in science and technology (S&T) and relevant research. In line with this, the Ethiopian government has reached remarkable progress in expanding core S&T universities. It is believed that higher education in S&T will help Ethiopia drive its industrialization, structural transformation, urbanization, and growth agenda.

In order to expedite progress in S&T education, the Embassy currently strives to recruit Korean professors in needed disciplines on behalf of the Ethiopian government. The Ethiopian government is looking for excellent scientists and engineers who can dedicated to serve for the development of Science and Technology sector in Ethiopia.

In this regard, the Embassy would like to request the EncoreKorea Initiative to actively support the Embassy in recruiting excellent and diverse potential candidates of Korean professors. The Embassy would also appreciate if the EncoreKorea Initiative could formally advertise the faculty positions at the Ethiopian universities on the different Korean institutions such as KAIST, POSTECH, NAEK and KAST etc.

The Embassy of the Federal Democratic Republic of Ethiopia in Seoul avails itself of this opportunity to renew to the EncoreKorea Initiative the assurance of its highest consideration.
